Work Experience

○ Developer

Queue Associates June 2023 to Present

- Collaborated with clients to understand their requirements for a Dynamics 365 CRM and implemented the solutions as a tech lead.
- Created Internal Tools such as a Project Hub & HR Suite using powerapps, power automate flows, and Dynamics/Sharepoint.
- Worked under a senior developer to learn Angular, TypeScript, and T-SQL, and assisted in testing/developing his projects.
- Worked on creating procedure and implementation/migration of source code to Azure DevOps.
- Created Dashboards in Power BI and our internal Dynamics CRM .
- Collaborated with other developers to assist with their client projects.

○ Software Engineering Fellow

Headstarter July 2024 - Aug 2024

- Will build 5+ AI apps and APIs using NextJS, OpenAi, Pinecone, and StripeAPI
- Developed projects from design to deployment leading 4+ engineering fellows using MVC design patterns
- Coached by Amazon, Bloomberg, and Capital One engineers on Agile, CI/CD, Git and microservice patterns

○ Development Intern

Queue Associates Summer 2022

- Worked on the Queue Associates Customer Self-Service Portal
- Used a mix of Microsoft Power Apps, SQL, Javascript, and Bootstrap to design and update the portal
- Created knowledge base article templates to streamline the creation process, along with documentation explaining it.
- Created a feedback form that stores the responses in a Microsoft Dataverse table

○ Development Contractor

Queue Associates Summer 2021

- Worked on the Queue Associates Certification Manager
- Designed a "Path" System to make assigning exams to people simpler and more efficient
- Created a web app that allowed admins to assign exams and assess progress, and employees to view what exams they needed to take
- Used Flask, Python, Javascript, Bootstrap, and MySQL to create the web app
- Stored and assessed all information using Azure Databases
- Deployed and managed the web app via Microsoft Azure
